This executive, architecturally designed property situated on the river boasts tremendous views as well as inground pool overlooking the river and a extensive outdoor entertaining area.

Inside this beautiful home is three double sized bedrooms upstairs all with robes and the master with walk in robe and ensuite. This home has been designed with flow and natural light in mind, with all of the living areas open to the river. This leads into the tiled meals area off the kitchen and then to the tiled family room with a fireplace and air conditioning unit.

The inground pool is surrounded by tropical, low maintenance landscaping offering a private retreat at the end of a long day.
